## Professional Summary

Ashish Kumar Sinha is a dedicated and skilled B.Tech CSE student with a robust background in HTML, CSS, Python, JavaScript, and Data Structures and Algorithms (DSA). He has successfully completed impactful projects, including an IoT Blind Stick and a Social Distancing Patch, showcasing his ability to apply technical knowledge to real-world problems. His practical experience is further enriched by an internship with AWS Academy in Machine Learning and a Juniper Networking Cloud virtual internship. Ashish's diverse skill set and hands-on experience make him a valuable asset in the tech industry, ready to contribute effectively to innovative projects and dynamic teams.

## Education

- B.Tech CSE: Galgotias University 2021-2025
- Intermediate: CBSE: Trident Public School 2021

## Projects

- Drum Kit**
  - Developed an interactive Drum Kit application using HTML, CSS, and JavaScript.
  - Implemented event listeners for keyboard inputs to trigger corresponding drum sounds.
  - Created a responsive and intuitive user interface to enhance user experience.
- Netflix Login Page**
  - Created a visually appealing and fully responsive Netflix Login Page using HTML and CSS, ensuring optimal viewing across various devices and screen sizes.
  - Implemented JavaScript to enhance user experience with interactive elements and dynamic form validation.
  - Integrated basic JavaScript functionality to simulate user authentication processes, providing a realistic login experience.
- To Do List**
  - Created a user-friendly To-Do List app with HTML, CSS, JavaScript, and Node.js.
  - Enabled dynamic task management and local storage for data persistence.
  - Integrated Node.js for efficient backend operations.

## Skills

- Technical Skills:** Python, HTML/CSS, JavaScript, jQuery, React JS, Tailwind, EJS, Express JS, RESTful APIs, Git commands, Version Controls.
- Tools:** Visual Studio Code, Microsoft Office, Postman, PG Admin, Github, Tableau
- Soft Skills:** Active Listening, Creative Thinking, Continuous Learning, Time Management.

## Certifications

- Software Engineering Virtual Experience Program** (Forage)
- Data Modelling with Knowledge Studio Intermediate Examination** (Altair University)
- Data Visualization: Empowering Business with Effective Insights** (Forage)
- Machine Learning Foundation** (Aws Academy)
